

Yardage Chart

Because the materials you can use to make fringe are so varied, it's impossible to tell you exactly how much material you need for your project.

Example Project

Trimming a 12" square pillow requires 48" of fringe. You may also use 48" of fringe for other projects, such as a throw. To make 48" of fringe with a 3" drop see guidelines below:

Yarn Type <i>Compare your material's thickness</i>	Estimated Yards
1/8" ribbon	104
3/8" ribbon	24
Yarn Weight #2	97
Medium Bulk #3	88
Sport weight	132
Chenille	45
Super Bulky #5	68
Super Bulky #6	43

**For various projects, adjust chart accordingly.*
